February 2008

Photo by Doug Moler

This is a very rare photo thanks to a group effort by Jim Wiebe, Tim Wiebe and Doug Moler, a retired Continental Captain who was the photographer. The red Howard, a 1938 Model 9/11, belongs to Jim Younkin and was piloted by Tim Wiebe. Tim is 26 years old with a CFII and over 1000 hours of flight time. The white Howard belongs to John Turgyan and is piloted by Tim's father Jim Wiebe. This is the only surviving original 1939 Model 11 of the four that were built. The last time John flew her was 38 years ago. This picture was taken over the fields of Valley Center, Kansas.
